FRONT-END DEVELOPER

Front-End Developer who enjoys working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and software development, Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

PROFESSIONAL EXPERIENCE

Sync Interns   **Apr 2023 - May 2023**

Web development intern

- a one-month virtual internship, in this internship I built four projects: A responsive product landing page, a Quiz app, a music player, and an E-learning platform.
- All of this project was built with HTML, CSS, and vanilla JS. you can find them all in my portfolio
- You can find the recommendation letter and certification of completion in my LinkedIn profile.

PROJECTS

Travel-Helper

- This was my graduation project from Damascus University's Department of Computer Engineering.
- Travel-Helper is a system that helps the user to create a trip that matches his preferences like budget, number of people, number of days, preferred places(natural, night, shopping, old), and preferred types of food (seafood, fine dining, etc).
- The generated trip has an interactive map that navigates the user in his itinerary.
- The generated trip has the shortest possible path, this was implemented using Dijkstra's algorithm.
- The system also has a recommender system that uses content-based filtering to recommend places to the user.
- Tech used: React+Typescript, Laravel, MySQL.
- Github Repo: https://github.com/mhmd-k/Tourism-System

E-commerce website

- E-commerce website for selling headphones, game controllers, and other electronic devices.
- This project is built using react and react-bootstrap.
- The state of this app is managed using the context API
- GitHub Repo: https://github.com/mhmd-k/Unsen
- Demo: https://mhmd-k.github.io/Unsen/

EDUCATION & CERTIFICATIONS

Computer Engineering
Damascus University (2018 - 2024)
grade: 74.20/100

[Meta: Advanced React](#) 🔗
Skills: React, React hooks, higher order components

[Meta: Version Control](#) 🔗
Skills: Git, Github, CLI(command line interface)

[freeCodeCamp: Front End Development Libraries](#) 🔗
Skills: React.js · SASS · jQuery · Redux · Bootstrap

[EF Set English Certificate 78/100 (C2 Proficient)](#) 🔗
Skills: English

SKILLS

- HTML
- CSS
- Javascript
- Bootstrap
- React.js
- Typescript
- Zustand
- Redux
- CLI
- Git
- Next.js

LANGUAGES

- Arabic (native language)
- English (Advanced)
